**Subject:** As a free person of the world I implore you to keep

As a free person of the world I implore you to keep the world free. People do not have to buy the product of any company if they choose not to. Microsoft may have bought some companies but the owners did not have to sell them to Microsoft.

Do not split up Microsoft as it might stop ALL new inventions becoming worldwide and only the very privileged might get them.

I reiterate. Please do not split companies up. If a company does wrong, the other companies in that field do not work with them or the public boycotts them.

Keep microsoft the way it is.

Thank You  
Warren stewart Perth
